3. **Annual Accounts 2020/21 and External Audit Report**

3.1 **Annual Accounts 2020/21** – The DoBP and CEO spoke to the paper presented. The CEO thanked both the DoBP and FinO on the preparation of the annual accounts, which again took place remotely this year. The CEO advised the format presented, is as provided by our EA, Deloitte, and the requirements of public sector reporting. The Chair reminded Members the CEO signs off the Annual Accounts, in his role as the Accounting Officer upon final approval by the Board.

3.2 Members noted that these had been reviewed at the recent AC Meeting, along with being circulated prior to today’s meeting for consideration by Members. The DoBP advised that these have been formally approved by the AC and provisionally signed, by both the CEO and Deloitte, on 8 October 2021.

3.3 The DoBP advised Members there were three main items to highlight:

3.3.1 the variance to budget surplus of £533,094, which would be returned to reserves;

3.3.2 additional narrative at p20 relating to Members leaving; and

3.3.3 p27 included staff engagement survey, which will enable a comparison for reporting next year.

3.4 The AC Chair confirmed these papers had been discussed in detail at the AC, and reported there were no concerns raised in relation to the Accounts. AC Members confirmed the reserves policy figure was fully discussed at AC and the Auditors stated it was good governance to show due diligence on the final reserves position.

3.5 Members noted that the hyperlink on p22 appeared to be a dead-link to the website. The DoBP confirmed all hyperlinks would be checked prior to publication and laying in Scottish Parliament.

3.6 Members thanked the DoBP, AC Chair and Members for their update to the Annual Accounts.

3.7 **External Audit Report** – The DoBP and AC Chair spoke to the paper presented.

3.8 The DoBP noted the Quality Indicator ‘amber’ grading on “Timing of key accounting judgements” and advised this related to the dilapidations provision. The DoBP explained this error and confirmed steps had been implemented to ensure this did not reoccur.

3.9 The DoBP also reported that both EA and AC were happy the Workforce Plan and Succession Plan were now linked, with updates being provided to future meetings of both AC and RC.

3.10 The AC Chair advised the AC sought clarification and assurance from the EA on the ‘amber’ reporting. The EA reported this was a minor issue, with no additional financial controls required. The EA also reported it was a ‘good’ report, which was ‘high’ up by their reporting standards. The AC Chair reiterated they were pleased with this report.

3.11 The Chair reiterated his thanks for the work on the Annual Accounts.

3.12 Members noted and approved the Annual Accounts and EA Report for 2020-21.

**NOTE:** At this point (1.45pm – 2.45pm) the Board adjourned, for a pre-planned presentation. The Board then reconvened, staring with the next business item.

4. **Key Issues**

4.1 The CEO spoke to the paper presented and it was agreed that all items would be taken as read, with additional updates provided on specific matters.

4.2 **Covid-19 update** – Members were disappointed to note SMT were still awaiting permission from the landlord to improve the office WiFi. The DoBP advised this had now been approved, with NVT booked in to attend on 21 October, to install new routers and WiFi boosters around the office.

4.3 **Board Member Appointments** – The CEO reported that whilst positive discussions have been taking place with SGvt on possible options, progress has been disappointingly slower than anticipated. The CEO stressed the SGvt Sponsor Team have been very helpful in moving this matter forward, on our behalf, with Ministers. Members also noted the risks exposed to the SLCC. The Chair reiterated an update would be provided as soon as available.
4.4 Joint work with LSS on Interim Improvements to the Complaints System – The DoPP advised SGvt were working on draft regulations which should be available for review before Christmas.

4.5 ABS – The CEO advised they have just received a copy of the LSS new revised scheme that was submitted to SGvt. This document needs to be fully considered in detail, in order for the SLCC to be ready to proceed when asked to by SGvt. It was noted this particular piece of legislation was now 10 years old.

4.6 Communication – The CEO reported the draft copy of the 2020/21 Annual Report had been issued with the Board papers, with SMT seeking feedback from Members to allow finalisation and publication, before the laying in Scottish Parliament. Members were encouraged by the Chair to respond, as requested. Members suggested the Mediation figures should reflect the point practitioners are often keen to mediate but complainers do not. It was agreed the DoPP would incorporate this point.

4.7 Oversight – The DoPP reported on positive engagement with RPOs and advised the Oversight Team were continuing to collate information on conduct complaint journey times. This is with a view to making a S36 recommendation to the LSS on the output of the trend data. For the benefit of new Members, the DoPP explained both S36 and S24. Following discussion, it was agreed the DoPP would share with Members, a copy of the LSS finalised conduct complaint report template and guidance for reporters, when available.

4.8 Cyber Update – The DoBP advised she would be attending a webinar as part of the SGvt Public Sector Cyber Resilience Network. They will hear from SEPA’s business resilience team on how they responded to the cyberattack.

4.9 Scottish Futures Trust (SFT) – New Frontiers for Smarter Working – The CEO reported this was established by SGvt as a centre for infrastructure expertise. Their role is to provide additional skills, resource and knowledge to public sector organisations, by supporting them to plan, fund, deliver and manage their major construction projects and buildings better. The CEO noted the document has been reviewed, and learning would be fed into the lease review project.

4.10 Covid Recovery Strategy for Scotland – For a Fairer Future – The CEO reported they had attended the launch event of this report, hosted by Scotland Deputy First Minister, John Swinney. The CEO advised the document praises the response of public bodies to Covid, in particular, as organisations worked in a more agile way, at pace, often being more confident with risk and collaboration, showing greater creativity and seeking to prioritise the most vulnerable. The CEO reported this also has been the move within the SLCC over the last few years, in particular with regards to the agile / sprint work etc. and it was also the approach taken that supported our strong Covid response. The document will be fully reviewed for learnings and was based on a wide consultation with SGvt stakeholders. It was noted the report also seems to encourage this as the continued way of working, which may be one of the most relevant points in the document. Again, it was noted that relevant learning would be fed into the lease review project.

4.11 S17 Work Update – For the benefit of new Members the CEO explained S17 powers under the Act. The CEO gave an update on the one case where the solicitor has failed to comply with the Court Order, and this is regarded as a serious breach. The solicitor has been directed to attend Court in person to explain why they have not complied with the Court instruction. The CEO also reported there could be press coverage as a result, a press statement has been prepared and will be made should it be required.

4.12 Digital and AI – Members noted as they had discussed the FarrPoint report earlier in the meeting, it was agreed AI would also be included to ensure future thinking on this subject. Members noted that the CEO would be attending an AI event and would report back to the December Board.

#### 5. Q1 Long Term Trends and Management Information to 30 September 2021

5.1 In the absence of the DoR, the CEO spoke to the paper presented, and advised whilst it was slightly early to compare end of year figures having only performed one quarter, it had been a strong quarter. The CEO also advised SMT were seeking an input from Members on future reporting of the customer satisfaction results within this report. Following discussion, Members agreed this slide would be removed, as the information was now captured within the Customer Feedback update paper reported by the DoBP.

5.2 The CEO advised IMT were reviewing the QA criteria and also increasing the sample size for review. Members noted this will affect future reporting data.

5.3 Members noted that whilst WIP and JT had increased slightly, overall it remains historically low.

5.4 The CEO reported that staffing was below budget and with lower incoming cases, CIs continue to be adjusted between Eligibility and Investigation as required. Members sought clarification on how SMT measure the effectiveness of CIs, for example was is it by number of cases closed per person. For the benefit of new Members the CEO explained the CI role, their targets and how they are measured on output of cases closed per month/quarter.

5.5 Following discussion, it was agreed Unallocated/Backlog would be reclassified as ‘Backlog’ for future reference. Members noted the number of unallocated cases were down this quarter, with the average Eligibility case waiting approximately 2 weeks for allocation at present. At Investigation stage, there is effectively no backlog that SLCC can control, as all waiting cases are awaiting files from firms under S17 or for a small number of cases, files from the LSS. Members suggested the data relating to the number of cases being held up due to S17 issues be highlighted on the website. The CEO and DoPP agreed this was a good idea that could be explored further.

7.2 The DoBP reported staff salary costs were £24,744 under budget for the month, with secondment income being £17,149 ahead of budget. Further savings of £2,500 have been made by not utilising reporters.
7.3 Members noted that whilst their costs were currently £15,764 under budget, there will be additional costs as new Board Members come in for Induction and shadowing from this month onwards.

The DoBP also confirmed it is linked to data presented in the Annual Report and reported to the Consumer Panel. The CEO reminded Members that the new Service Experience Team (SET) will also review this information, with a view to improving the customer experience.
