2.1 No Apologies were received as all were present; however the Chair did apologise for the late start to the meeting and explained this was due to them holding their Members' only session.

3. Declaration of Interests

3.1 It was noted the standard Declarations of interest were declared by George Clark, Ian Leitch and Maurice O'Carroll in relation to any pecuniary interest with regards to budget discussions.

4. Management Information & KPIs

4.1 The HI spoke to the paper presented and explained that as this was the 2nd month of presenting the figures in this format and advised that a great deal of work has been carried out to ensure that the Newpro Reports are being generated accurately going forward.

- 4.2 **Enquiry & Eligibility** - The HI advised that they were sitting with the highest number of cases in 2 years at this stage in the process and that steps were in place to address this influx of cases. In that, they have appointed an Interim Investigation Support Manager and recruited 2 x 12 month contract Case Investigators. Members sought clarification as to the reasons why there was a notable increase in the number of cases which were now at this stage in the process. The HI explained that this was due to the number of Enquiries and Complaints received and also due to staffing issues, which were being addressed. Members reiterated their concerns that this situation seemed to be ongoing and sought assurance that the correct solution was being applied to this area. The HI confirmed it was.
- 4.3 **Mediation** - The HI advised that there had now been 5 successful Mediations of Hybrid Conduct First cases and also that they have now carried out 2 Mediations within Prisons which also both been successfully Mediated.
- 4.4 **Investigation** – The HI advised that there was an increase in the number of cases which now averaged 6mths. The HI also acknowledged they had increased the use of Reporters to address this and they have been looking at rebalancing workloads within the Investigations teams. Members also asked that all figures were accurately recorded and the HI confirmed they would be going forward.
- 4.5 **Determination** - The CM advised that there has been a reduction in the number of cases which were now sitting over 6 months and that the team had currently been working hard in concluding cases which has resulted in an increased output this month. The CM advised that there was one full DC scheduled for June and at present there were 3 cases scheduled for a DC in July, with the date to be confirmed with Members.
- 4.6 Discussion took place regarding the frequency of DCs and the progression of cases through the system. Members also reiterated their concern that they are seeing a reduction to the number of DCs being scheduled per month, from 2 to 1 for the month of July. The CM advised that this again was due to the reduction in the number of cases being transferred from the Investigation to the Determination stage of the process.
- 4.7 **WIP** – Members noted that there had been an increase within the Eligibility and Investigation stages and sought an explanation for this. The HI advised that there were a number of issues as to why this had increased and they were being addressed.
- 4.8 Members suggested that the 'whole' profile of the organisation required a review to ensure that we have the right resources in the right place within the organisation, in that we might need to review that staff are in the right areas, if we have an increase in cases coming in at Enquiry and Eligibility stage then we need more resources working in this area etc. The HI explained that they have just reviewed their working practices and staff will now be working more within the Eligibility stage and less on Investigation, also that the Determination team had been reduced dramatically to shift the emphasis within the organisation.
- 4.9 Members also enquired if this shift within the organisation would mean more of a reliance on the use of Reporters within the Investigation stage and the HI confirmed that it has as it has allowed us to not increase the overall headcount of the organisation. The HRM confirmed this was the resourcing model which was proposed 2 years ago. The Chair asked that the HI provide a review of the use of Reporters for the next Board Meeting and also asked that Members be provided with a list of the names and backgrounds of all Reporters being used.

Action	Owner	Due Date
HI to provide an update review on the use of the Reporters and this should include a list of the names and backgrounds of all Reports to the Board at the next meeting.	HI	28 July 2015

4.10 Members acknowledged that whilst there were a number of cases sitting within the Eligibility stage it was unpredictable to determine how many would progress through to the Investigation and Determination stages of the process. The Chair advised that he would like himself and Members kept up to date with this matter so that Members would be able to make an informed strategic discussion at the next Board Meeting.

4.11 Members thanked the SMT for their updates and explanations to the paper and noted the figures presented.

- 5.2 Discussion took place regarding the involvement of the 'decision-maker' being present during the meetings with Counsel and Members had strong views, in that they should be involved in this process. Whilst it was acknowledged that the timescales involved in the Appeals process was time critical. The Board decided that the Chair of the relevant DC be involved at all stages of the Appeal process and that the other Members of the DC be copied into all relevant documentation, including legal opinions.
