In terms of formal governance there were no additional issues to note in this meeting, with the current situation much as it was at the time of the last formal report.

4.3 **Joint work with LSS on Interim Improvements to the Complaints System** – The DoPP gave Members an update on the current position. It was noted that the SGvt analysis of responses to the consultation on the amendments to the 2007 Act that can be made by statutory instrument, was published by SGvt on 14 July. The DoPP advised that the drafting changes would go forward, led by Officials before laying in Parliament, possibly by the end of the year. The Chair sought clarification timescales implementing changes within the SLCC, once a statutory instrument had been passed. The DoPP anticipates this would into the next operating year, possibly May/June 2022. Following discussion, it was agreed the CEO and DoPP would continue to engage in this process, and provide Board with further updates at the September Conference Call meeting.

4.4 **Fit for Future / Scottish Government (SGvt) Working Party** – The DoPP gave Members an update on the current position. Members noted SGvt were aiming for an autumn publication of the consultation on models of reform. The DoPP advised that this timescale could mean the developing of a consultation response and the associated communications could be at the same time, as parliamentary scrutiny or implementation of the interim changes, and potentially ABS too. It was agreed the CEO and DoPP will continue to monitor and engage in this process and provide Board with further updates at the September Conference Call meeting.

4.5 **Law Society / Master Policy (Locktons)** – The DoPP advised that progress was continuing with LSS and Master Policy in the pursuit of redress for parties. It was noted the remaining cases were more complex and taking longer to obtain redress for parties. Members sought clarification on whether the recovery of monies included complaint levies. The DoPP confirmed it can do in certain cases and in some historical cases MP have paid out on complaint levies. Members also requested a copy of the MP tender process report. This was agreed by the DoPP.

4.6 **ABS** – The CEO advised that LSS have submitted a revised scheme rules to the Minister, and LSS have suggested to us that SGvt Officials are working towards the end of the year for authorisation. The CEO gave an overview of process, timescales and the impact this will have on the complaints process. It was noted this will also need updated on the website. Following a free and frank discussion, it was agreed further information would be brought to the September Board Conference Call to allow for further discussion.

4.7 **Oversight** – The DoPP advised as part of the improvement work on engagement with RPOs, the Oversight Team have recently published a statement on our approach to oversight, which is on our website. Members were pleased to note this statement will guide the work in this area.

4.8 **Political Activity** – Members noted the new Ministerial team has now been confirmed with, Keith Brown becoming Justice Secretary and Ash Denham remaining as Minister for Community Safety and retaining responsibility for legal services. The DoPP advised two new committees have been established, with the justice portfolio split over the two – the Criminal Justice Committee and the Equalities, Human Rights and Civil Justice Committee. The DoPP noted at the moment it was not clear which committee would lead on issues like reform. The DoPP also advised there had been a positive response from the MSP guide that was sent to all MSPs following the election.

4.9 **Cyber Update** – The DoBP provided an update on recent cyberattacks on three other organisations as part of the tracking cybersecurity AI. Members sought clarification on whether our current insurance policy included cybercrime cover. The DoBP confirmed it did and provided Members with an update from the AC meeting on this matter. 4.11 Public Sector Leadership Summit on Race Equality – The CEO gave an overview of the output from the draft report which we have been asked to provide comment on. Unfortunately, due to the short notice of the dates we were unable to attend the event which took place in March, which was in response to recommendations from the Equality and Human Rights Committee of Parliament. Members noted that SGvt also requested that we consider formally agreeing to be part of a ‘joint commitment’. Following discussion, it was agreed that SMT should respond to SGvt noting our formal acceptance of the joint commitment.

5. Planning Cycle for 2022/23 Operating Plan and Budget Timetable
5.1 The CEO spoke to the paper presented. Members noted they were not being asked to make any formal decision as further discussion would take place at the September, October and November Board workshops, with the final decisions being taken at the December Board.

5.2 Members noted that whilst there was an emphasis on digital, there was no specific theme of cybersecurity and secure digital communication. The CEO agreed that this should be developed as a standalone theme, rather than incorporated within digital as at present.

5.3 For the benefit of new Members the CEO explained the predictive model, the use of historic trends and impact that Covid-19 has had incoming numbers, and also that the predictive model involved the services of an external statistician. Members wondered whether there had been any specific rise in trends within certain business areas, ie crime, conveyancing or matrimonial complaints. The CEO agreed it would be useful to carry out this analysis again, to see if there were any changes to specific business area types. The CEO intimated there might be a reduction in criminal complaints, due to there being reduced court service at present. However, it was agreed this might not be reflected in the data.

5.4 The Chair reiterated the final Budget and Operating Plan would be issued for consultation by the end of January 2022 at the latest. The Chair advised it has also been agreed the four newly appointed Members will observe these discussions from October onwards, thus ensuring they are familiar with the current Boards decision making process.

6. Q4 Long Term Trends and Management Information to 30 June 2021
6.1 The DoR spoke to the paper presented and advised CIs have been moved within processes, ensuring that the performance issue at Eligibility was addressed, this in turn allowed for an additional resource move to cover the vacancy within Determination.

6.2 Members sought an update on the QA process and wondered whether the Member feedback was aiding the quality targets being met or not by CIs. Members thought with lower case numbers there would have been an improvement in quality. The DoR advised that whilst there was more emphasis on QA, more time being allocated to this process by
IMT/SMT. It was acknowledged all CIs were now fully established in their roles and are subject to various different levels of QA checks by their managers. The DoR confirmed the output of the QA findings would be shared with Board. The CEO noted that the Op Plan for this year has a review of the QA system in it, which was due to be bought to Board later in the year. Following a free and frank discussion, on how the output of learnings was shared with staff and Board, it was agreed that an update on QA and how the input of members was used would be brought to the October Board Meeting either as a paper or in the key issues briefing.

The DoR reported that whilst there had been a slight improvement, we have had to instruct our Legal Agents to pursue with one case, which is now moving to motion, as it would appear there have been no submissions made, so the case is progressing. 8. Q4 Finance Report to 30 June 2021

8.1 The DoBP spoke to the papers presented and reported Income was £83,056 ahead of Budget, with Expenditure showing a saving of £462,550, thus resulting in an increase to the reserves position by £545,621.

8.2 The DoBP reported that staff salary costs were £38,958 under budget for the month, and £338,240 over the year, this was due to significant savings within staff costs and not recruiting on current staff vacancies.

8.3 The DoBP also reported IT costs continue to show an overspend of £43,732, this relates to the purchase of headsets and wireless keyboards for employees and the continued additional IT support from NVT and to cover other licenses allowing staff to work remotely at home.

8.4 Members noted the other figures presented by the DoBP.
8.5 **Balance Sheet** - The DoBP advised the balance sheet value of £1,204,937 as at 30 June 2021, is represented by £659,316 held in the General fund, plus a surplus on Income and Expenditure Statement to date of £545,621. The DoBP also advised that further consideration would also be given to the bad debt provision in the balance sheet and whether some of the bad debt would be written off. The DoBP reported this would be considered and reviewed as part of the yearend figures in the final accounts. The Chair enquired when the final accounts would be presented to Board. The DoBP advised that the EA commenced on Monday 9 August, following which once these have been audited and signed off, Board would be updated by email.

8.6 **Surplus** – The DoBP reported the current projected yearend surplus was £545,621, and this would result in an increase to reserves from £659,316 to £1,204,937. Members noted this matter had also been discussed at the recent AC meeting. The DoBP reported in the 2021/22 budget the equivalent of 3 months expenditure would be £953,619, which would leave an additional £251,318 within reserves. The AC recommended Board discuss this fully but suggestions were it could be:

- kept within reserves but ring fenced, for a potential cyber-security attack;
- utilised as investment for IT/Office relocation costs linked to the hybrid working model; or
- simply retained in reserves.

8.7 The AC Chair reiterated that Audit Scotland recommend holding three times the value of expenditure in reserves, with the surplus being utilised across the organisation. Members discussed the implications of holding this extra monies in reserves. Following a free and frank discussion, on the feasibility of increasing the cybersecurity insurance cover and the costs associated with this. The Chair suggested that SMT consider all points raised by Members and for this to be discussed further when the yearend accounts have been finalised.
